Provisions of the emergency revenue

The emergency act provides for a graduated tax on the value of the property to be conveyed, and Acting Commissioner Fletcher rules that this tax is to be levied only on the actual cash consideration if the property is sold subject to a deed of trust. The promissory notes then become subject to the special tax on that form of commercial papers. For instance, where property is sold for \$2,000, \$1,000 of which is cash and the balance on a note, the tax on the deed would be at the rate of \$50 for each \$500 or fraction in cash, or \$1, and 20 cents on tion in cash, or \$1, and 20 cents on the promissory note.
